But Oris would needle." So runs the fairy tale in the not let him go. So Hudo wrote his Arabian Nights, but with the introduc- father a note, and Oris took it up and tion of the new material "duvetine" or dropped it at the ogre's door at dawn. "duvetyne," upon the market it does By noon there came a wagon full of not seem to have been such a monstrous bags of golds, and the father himself exaggeration after all. Many vards of sitting on top. duvetine can be easily passed through a bracelet without crushing or injuring. "you have conquered us fairly. You

have to be made more pliable to accord with the clinging styles of the day, took that material and after experimenting with it some time, succeeded in forming a new material which he called duvetine. This he placed in the hands of the famous dressmakers and they were delighted with it. The secret leaked out and copies were instantly made. forming a new material which he called Limpid and soft, duvetine preserves all of the richness and warmth of velvet yet clings to the figure like wet cheese

For afternoon wraps and suits this nesterial is unexcelled. Dark shades of exquisite hue, made up with brilliant colored linnings give the Oriental effect of extreme wealth of color and unusual rarity of quality. At present very little is positively known as to the wearing qualities of duvetine, or tually settle itself as a mean. Indications are that while prices remain high, wearing qualities will offset any Butterflies continue to be quite the rage. Hats are not alone, in being the resting place of these dainty and airy creations. An ermine muff described orated with a rither stiff and formal dooking butterfly of colored black silk, spread out on the striking background of white.

What Upset Her.

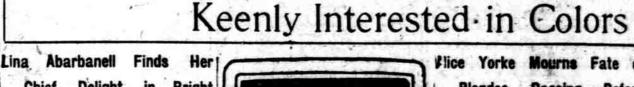

What Upset Her.

Mistress—What's the matter, Nellie? Have you taken something that doesn't lagree with you?

No matter what alls your child a laxative should be the first treatment given. Look at the tongue, mother! If coated, it is a sure sign your "little one's" saves a sick child tomorrow.

Ask your druggist for a 50 cent bottle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, cat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in just a few hours all the clogged
No matter what alls your child a laxative should be the first treatment given. Look at the tongue, mother! If coated, it is a sure sign your "little one's" saves a sick child tomorrow.

Ask your druggist for a 50 cent bottle, of "California Syrup of Figs," which contains directions for bables, children of all ages and for grown-ups plainly on the bottle. Beware of counterflets sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.—Advi.

Julia Murdock Thinks Actresses

Hued Scarfs. HEOSOPHISTS have long as serted and proven the influence of color on temperament; the eminent sociologists cannot over-

estimate the value of surroundings of the proper color as an influence upon the mental, moral, and physical welfare of the poor; but it is not often that a musical comedy prima donna can be credited with knowing and thinking of subject obviously so far removed from her line of endeavor. For, though much may be said to the contrary, outside of a few hobbies, theatrical people, as a rule, eat, sleep, and drink nothing but the theater—their role, their coetumes, and their associates. Miss Lina Abarbanell, the sprightly

little Viennese singer, who is coming to Washington next week to sing in "The Red Canary," the new operetta, believes implicitly in the influence of color upon one's personality. Miss Alice Yorke, who will be seen at the Belasco "Oh, I Say," also has some original views upon colors.

Miss Abarbanell never travels with-

ning up to the shed, very hungry and out carrying an assortment of gaylyvery cross, but Oris, softly called for colored scarfs with her. These she "Here are the fish," said the boy, and when visitors enter her room the uses to ornament her botel apartment, pointing to a pile of barrels. "But be-fore you start, let me dress you up for

For Pretty Colors. "You will be better able to carry the

"Ah, you notice the pretty colors." barrel if you put a rope to both your wrists," continued the boy. So Hude let less than a year ago. "Perhaps you are surprised, but I do this wherever "I am going up the ladder to get you I happen to be, just as I do in my own a pretty necktie," said Oris, taking the nome. I like bright colors. They seem rope by the middle and running up the to have an influence on me. They make me feel bright and happy. If you are interested in such things and you as soon as he got above the ogre, he ought to be, it is all very interesting. Here, let me show you something, and Miss Abarbanell went over to her desk, where she picked up a scrap book and handed it to me. In it was pasted said the boy, coming around in front of between flattering notices of herself the orge. "And I mean to keep you and pictures of the same charming

MISS LINA ABARBANELL.

Miss Abarbanell said. "Have you never felt this influence Do you know there are some people who never think of the day of the week or she date of the month without seeing it in color? It Use of Grease Will that is why some people speak of blue Prove Lasting Benefit. Monday.' In music, too, there are certain tones on the plane and organ, and complexion will have its excellent efeven in singing that suggest colors to feet because women will use more vegmany sensitive people. Oh, what a etable grease to remove it, and grease beautiful tone is violet! So it is with is the basis of all good complexion nearly everything else in life. In litera- which is a secret, by the way, that few ture as well as music, emotions and people outside of the theatrice

on, a paragraph which read:

what scientific people call 'color think-ing.' It is just the same thing with the sad things in life. We speak of poverty and squalor as drab, and of a lowering sky as gray. We speak of pleasant things in terms of color, too, and this new play of mine—The Red Canary well, I shall not make any bosats, I shall wait for the verdict of the pub Miss Yorke of the "Oh, I Say" pany, has something to say about colors in relation to complexions. "What is a poor woman going to do now?" she asks. "The scientists say that in a short time the dark-skinned people will own America, and it seems as if there might be some truth in the remark. The women of Paris are mak-ing over their complexions to har-monize with this idea. There are no more 'peaches and cream' complexions in Paris. They have thrown that all away with the roses. Tellow is the color now. Everybody in Paris is going in for the dusky olive complexion. All this is due to the Oriental effect which is to be noted in the millinery and gown

being presented to them in some zort of box, with its pink and white powders.

annot visualize anything without its

### colors are always felt in colors. "Red, for instance. What a joyous look that some people acquire after the first bloom of youth has departed vanish through the constant use of oxid cream and vegetable oils, and by using the various creams to remove make-up, the actress is always sure that her ANSWERS TO QUERIES SENT BY READERS TO

The Times Question Box Duvetine is material very much like the new velour de laine which was placed on the market last year, but more soft, light and clinging. It has all of the general characteristics of very fine panne velvet, but is capable of being crushed, without wrinkling, into a much smaller compass. The story connected with the invention, as it might be called, of this new material, is rather interesting.

Rodler, one of the great French fabric designers, realizing that velour-de laine had great possibilities, but that it would have to be made more pliable to actave the first one to get any one of us with our backs. Here is your gold and none of us will ever trouble you again for we all are going water to which has been added one-half or which has been added one-half of the great from the stem ends of two dozen ince red peppers and remove the seeds. Into a kettle of four quarts of boiling water to which has been added one-half or which thas been added one-half or which the same and designers, which is 400 miles from here."

So Oris let the young ogre go free and let simmer, one-half hour, them come to the boiling point, then them come to the boiling. Then remove the peppers and punge instantly fint cold water.

When all have been put through this point of fine chopped cabbage in a cool place, let stand for a few weeks. The ogres went away and were never how, and one pint of green tomatoes, bowl, add one pint of green tomatoes.

The ogres went away and were never how?

The ogres went away and were never how?

The ogres went away and were never how, is a finite of the stove, cover, and let simmer, one-half hour, them come to the boiling point, then them come to the boiling point, then them come to the boiling. Then remove the seeds, into a kettle of four quarts of boiling water to which has been added one-half and ounce of alum, put as many of the peppers as will go without crowding; let them strain have minutes, with

and mother and Oris dragged and tugged and had the joillest time of their lives pulling the bags into the shed.

The ogres went away and were never seen again. The fisherman now began to have an easy time, for with his gold he bought new boats and a new house and new clothing, so that all nineteen of the children were richly arrayed.

They have ice cream for dinner every rice, season with one teaspoonful of the same celesty, one-half pint of fine chopped green pepper. Skin four large from all moisture: mix all the vegetables together, chopped as fine as vegetables together. closet was chocked full of toys, such as skates and balls, and bats and games so that the whole family were as happy as if it were Christmas, Thanksgiving, and Fourth of July rolled into one.

or little tops which have been cut off, and secure them with a string.

Put the peppers in an upright position in a stone jar and set them one on top of the other. Place three quarts of vinegar with one quart of water and six tablespoonfuls of celery seed, the
